Dear Mr. Snow:

You have been invited to the CalFed meeting with the stakeholders of Englebright Lake, Thursday, January 14, at 6:30PM in Penn Valley. We certainly hope you will be able to attend to answer the questions that were asked at the last meeting.

Kevin Wolf, the facilitator, is a member of Friends of the River who have placed the removal of Englebright Dam at the top of their ten hit list. This is not an impartial facilitator. It is apparent that he is only interested in having the outcome beneficial to his causes.

You sent Terry Mills to the first meeting with the stakeholders and all he did was have someone write down the process questions. He gave no answers. Obviously, he is not a person with the authority or knowledge to answer questions and it was a waste of his time and ours to attend a meeting to have questions written down.

Hopefully, we will have a handout sheet at the next meeting, and a mailing before the meeting to all those interested, answering the questions that were asked at the December meeting so we will not go through the same routine again.

If, the goal of these meetings is to gain consensus, it is apparent that there will be no consensus when Friends of the River, SYRCL, and Bruce Babbitt want the dam decommissioned and Englebright supporters do not. Not only that, but they don't want their tax dollars to study anything that would involve changing Englebright Dam and Lake. This message was voiced repeatedly at the December meeting and will be again at the January meeting.

We look forward to meeting you and having our questions answered.

Sincerely,

Carol Munro
